

Engagement Session: EYE-TA Differentiation Session

OUTCOME

Streamline differentiated instruction using existing EYE data

Participants will:

- leverage EYE report data to implement strategies that support the unique needs of all children in the classroom, and
- gain access to the EYE-100, a comprehensive database of skill-strengthening activities specific to the EYE.

SESSION INFORMATION

Support the unique needs of all children

During the session, our experts will:

- review a step-by-step process to support differentiated instruction using EYE data, and
- walk through case studies that clearly illustrate differentiation in practice, supported by the EYE-100.
